

ISSN Online Enrichment Assignment

Videos:

Custom Computer Systems - CompTIA A+ 220-1001 3.8

<https://www.youtube.com/watch?v=Q5LMe3wuZLY>

Installing Operating Systems - CompTIA A+ 220-1002-1.3

<https://www.youtube.com/watch?v=0kY9v5GNbb4>

Configuring a SOHO Firewall – CompTIA A+ 220-1001 – 2.3

https://www.youtube.com/watch?v=iGtj1SjSF30&feature=emb_title

Instructions: Watch the 3 videos separately, you will then have 10 items or topics that stood out in your mind that are important to write down what you learned or picked up new from these videos

You may use this sheet three times separately to write down your answers and this will be reviewed when we get back to school.

If you have any other questions' please email me and I will check e-mail twice a day minimum. Once in the morning before 10:00 am and then before 5 PM to conclude the day - mzaikowski@baypath.net

The three videos are all based on the ISSN shop in different aspects. The shortest video is just over 5 minutes, but its packed with what type of PC hardware is needed for the type of PC for specific functions or jobs. The other two videos are about 20 minutes long on a home firewall/router and Computer Operating Systems. I chose these videos as they cover computer hardware, Networking Security and Operating systems for the PC to function. Besides they are focused on the CompTIA A+ certification. These topics are all necessities in the field of IT or ISSN.

1.) _____

2.) _____

3.) _____

4.) _____

5.) _____

6.) _____

7.) _____

8.) _____

9.) _____

10.) _____

Please write (type) a few sentences on what you feel was the biggest or most important idea or fact that would be the focus of this video? Please explain why? (Don't be afraid to go to a third sheet. ☺)
